New Login Process Through TMHPs IAMOnline and Provider MFA Registration

Background:

Effective June 12, the Texas Medicaid & Healthcare Partnership (TMHP) will transition to the IAMOnline platform as the new entry point for accessing applications on the TMHP web page.

Key details:

Texas Medicaid providers will set up their TMHP IAMOnline account to manage services, access resources and perform essential TMHP-related tasks. TMHP IAMOnline uses a single sign-on and has password self-service capabilities. When logging in to TMHP IAMOnline, providers will set their password and register multi-factor authentication (MFA) within seven days of receiving the activation email.

Additional details and activation instructions can be found in TMHPs article "[New Login Process for All Texas Medicaid Providers Through TMHP IAMOnline and Provider MFA Registration for Release 1 Transition](#)", on the [TMHP Texas Medicaid webpage](#).

Portal applications affected

The following online portal applications will be transitioned to TMHP IAMOnline on June 12:

- MedLog
- Provider Enrollment and Management System (PEMS)
- Manage IMD Clients
- Electronic Remittance Advice (ERA)
- PA on the Portal

TMHP will notify providers in future articles of the implementation dates as other online portal applications are transitioned to TMHP IAMOnline.
